

# ENVS - ENVIRONMENTAL HEALTH

---

## **ENVS 1010 Intro to Environmental Issues (3 Credit Hours)**

This course introduces environmental health, focusing on the risks that our surroundings pose to human health. Students will learn to evaluate hazards like toxic chemicals, radiation, and infectious agents, with a focus on ecosystem context. Coursework will involve analyzing case studies and applying principles to real-world environmental health issues.

**Academic Level:** Undergraduate

Enrollment is limited to students with a program in Health Sciences or Cont Ed Post Bacc Pre-Health.
