

IMED - INTERNAL MEDICINE

IMED 406 Internal Med-InfectiousDisease (2-12 Credit Hours)

Academic Level: Graduate

IMED 704 Neurology (4 Credit Hours)

Academic Level: Graduate

IMED 705 Internal Med Clerkship-Extend (12-15 Credit Hours)

May be repeated for credit.

Academic Level: Graduate

IMED 708 Internal Medicine Clerkship (2 Credit Hours)

May be repeated for credit.

Academic Level: Graduate

IMED 712 Internal Medicine Clerkship I (2-12 Credit Hours)

May be repeated for credit.

Academic Level: Graduate

IMED 713 Internal Medicine Clerkship II (2-12 Credit Hours)

May be repeated for credit.

Academic Level: Graduate

IMED 714 Internal Medicine Clrkship III (2-12 Credit Hours)

May be repeated for credit.

Academic Level: Graduate

IMED 721 Internal Medicine Elect I (2-6 Credit Hours)

Core Internal Medicine is twelve (12) weeks (general or mix of general plus subspecialty) and may complete one (1) or more additional rotations in Internal Medicine subspecialties, typically in a hospital setting.

Applying principles learned in the preclinical years, and working within a multidisciplinary team, the student learns to formulate a differential diagnosis based on the history and physical, prioritize a problem list, identify appropriate diagnostic tests, develop a treatment plan, and present patients to supervising physicians and in team meetings. Further developing and refining the ability to communicate effectively with patients and members of the treatment team is of critical importance.

Academic Level: Graduate

IMED 722 Internal Medicine Elect II (2-6 Credit Hours)

Core Internal Medicine is twelve (12) weeks (general or mix of general plus subspecialty) and may complete one (1) or more additional rotations in Internal Medicine subspecialties, typically in a hospital setting.

Applying principles learned in the preclinical years, and working within a multidisciplinary team, the student learns to formulate a differential diagnosis based on the history and physical, prioritize a problem list, identify appropriate diagnostic tests, develop a treatment plan, and present patients to supervising physicians and in team meetings. Further developing and refining the ability to communicate effectively with patients and members of the treatment team is of critical importance.

Academic Level: Graduate

IMED 723 Internal Medicine III (2-6 Credit Hours)

Core Internal Medicine is twelve (12) weeks (general or mix of general plus subspecialty) and may complete one (1) or more additional rotations in Internal Medicine subspecialties, typically in a hospital setting.

Applying principles learned in the preclinical years, and working within a multidisciplinary team, the student learns to formulate a differential diagnosis based on the history and physical, prioritize a problem list, identify appropriate diagnostic tests, develop a treatment plan, and present patients to supervising physicians and in team meetings. Further developing and refining the ability to communicate effectively with patients and members of the treatment team is of critical importance.

Academic Level: Graduate

IMED 751 LIC Internal Medicine (6 Credit Hours)

This is a Longitudinal Integrated Clerkship in Internal Medicine.

Academic Level: Graduate

IMED 752 LIC Internal Medicine (6 Credit Hours)

This is a Longitudinal Integrated Clerkship in Internal Medicine.

Academic Level: Graduate

IMED 854 SUBI: Hematology/Oncology (2-12 Credit Hours)

May be repeated for credit.

Academic Level: Graduate

IMED 898 SEL: Hematology (2-12 Credit Hours)

May be repeated for credit.

Academic Level: Graduate

IMED 906 Ultrasound (2-12 Credit Hours)

May be repeated for credit.

Academic Level: Graduate

IMED 925 Podiatry (2-12 Credit Hours)

May be repeated for credit.

Academic Level: Graduate

IMED 992 Intens Care Unit - Pulmonary (2-12 Credit Hours)

May be repeated for credit.

Academic Level: Graduate
