

# PSCH - PSYCHIATRY

---

**PSCH 701 Psychiatry Clerkship (2-12 Credit Hours)**

Core Psychiatry encourages the student to recognize, screen for, and assess key symptoms of common mental illnesses, using the mental status examination as the basis for differential diagnosis and therapy. Additional content areas include cognitive, psychomotor, and affective development, risk assessment, substance abuse issues, and the impact of mental illness on patients and families.

May be repeated for credit.

**Academic Level:** Graduate
