Mission

The Mission of the Social Work program at the University of New England is to foster an innovative and inclusive learning environment that nurtures a sense of responsibility toward the well-being of individuals, local and global communities, and the environment. Grounded in the values of social work and the person-in-environment framework, our program prepares students to collaborate across disciplines while addressing the dynamic challenges of a changing world. The social work program is committed to educating future social workers to embrace the richness of diversity and challenge oppression in all of its forms.
